e-Commerce

For many businesses, the Internet enables a type of interaction with clients which extends past simple information sharing.

With the guidance and support of Stellar's experienced programmers and business analysts, you can begin to capitalize on the power of the Internet.

Basic e-Commerce

A basic e-Commerce site allows you to display your products and services for customers to browse and order using standard credit cards and shipping methods.

This is a very stable and safe way for your business and your clients to begin interacting online.

Advanced e-Commerce

For companies ready to move fully into the sphere of online commerce, an Advanced e-Commerce solution provides all the framework of a basic e-Commerce solution and also enables greater integration of your online activity with your business processes and systems.
